Experience the Difference

Essentials Outline

This Gonstead Essentials lecture is to form the foundation principles of applying the Gonstead System of Chiropractic. It will be delivered by GCS Fellows and Diplomates who practise and apply Chiropractic utilising the Gonstead System every day in their successful practices.

This Essentials presentation gives you basic principles for the system established by Dr C S Gonstead. It provides the biomechanical basis for the subluxation and compensation mechanisms and the listing system. The workshop also introduces the primary tools to identify the specific subluxation site, including static and motion palpation, instrumentation and visualization. The session will incorporate an introduction to basic adjusting technique.

“A great profession (or technique) can only be sustained through the authentic transmission of its principles from generation to generation”

Fred H. Barge, D.C., Ph.C

“The most important part of getting people well is to take your time, give them the utmost of your ability as a chiropractor, find the correct subluxation. Accept it. Correct it. Leave it alone.” CS Gonstead

**Register online or fill out the form on
the back and fax to GCS treasurer.**

This programme has been assessed by the Chiropractors' Association of Australia (National) Ltd and allocated 6 Formal Learning Activity Hours.

“*Find It, Accept It, Fix It, Leave It alone.*”
